WAKEFIELD WRAPPED

Dear Future Generations,

Greetings from the past! We hope this letter finds you well and enjoying the wonders of technology in your time. We wanted to take a moment to share with you a little slice of life from our era to explain our yearbook theme, specifically something called Spotify.

Now, you may be wondering what on earth Spotify is, so let us enlighten you. Imagine a magical realm where you can access virtually any song your heart desires with just a few taps on a screen (we imagine that you can do this with an implanted chip by the time your eyes dart across these pages).

Spotify and Apple Music were the go-to destination for all things music-related. Want to discover new artists? Spotify's got you covered with personalized playlists and recommendations. Need a killer playlist for your workout, study session, or road trip? Look no further than Spotify's curated collections tailored to every mood and occasion.

Spotify wasn't just about listening to music; it was also a social experience. You could follow your friends, see what they were listening to, and even collaborate on playlists together. It was like peeking into someone's musical soul (which could be both enlightening and slightly terrifying).

And let's not forget about the memes and inside jokes that spawned from Spotify. From the infamous "Wrapped" playlists at the end of each year to the debates over who had the superior taste in music based on their Spotify stats, it was a treasure trove of comedic gold.

So, future generations, as you navigate your own technological wonders, maybe you'll stumble upon some ancient playlists from the early 2020s and get a glimpse into our musical preferences (which, we must say, were pretty excellent).

A LETTER FROM THE *Yearbook Committee**

Dear Wakefield High,

As we turn the pages of the 2024 Oracle, we're greeted by a tapestry of memories woven with laughter, friendship, and growth. Each photograph captures a moment in time, a snapshot of the countless experiences that have shaped us into the individuals we are today.

From the bustling hallways to the seldomly quiet corners of the library, our journey together has been marked by resilience and camaraderie. We've weathered challenges and celebrated triumphs, all while forging bonds that will last a lifetime.

To our dedicated educators, thank you for your unwavering guidance and belief in our potential. Your passion for teaching has ignited our curiosity and fueled our pursuit of knowledge.

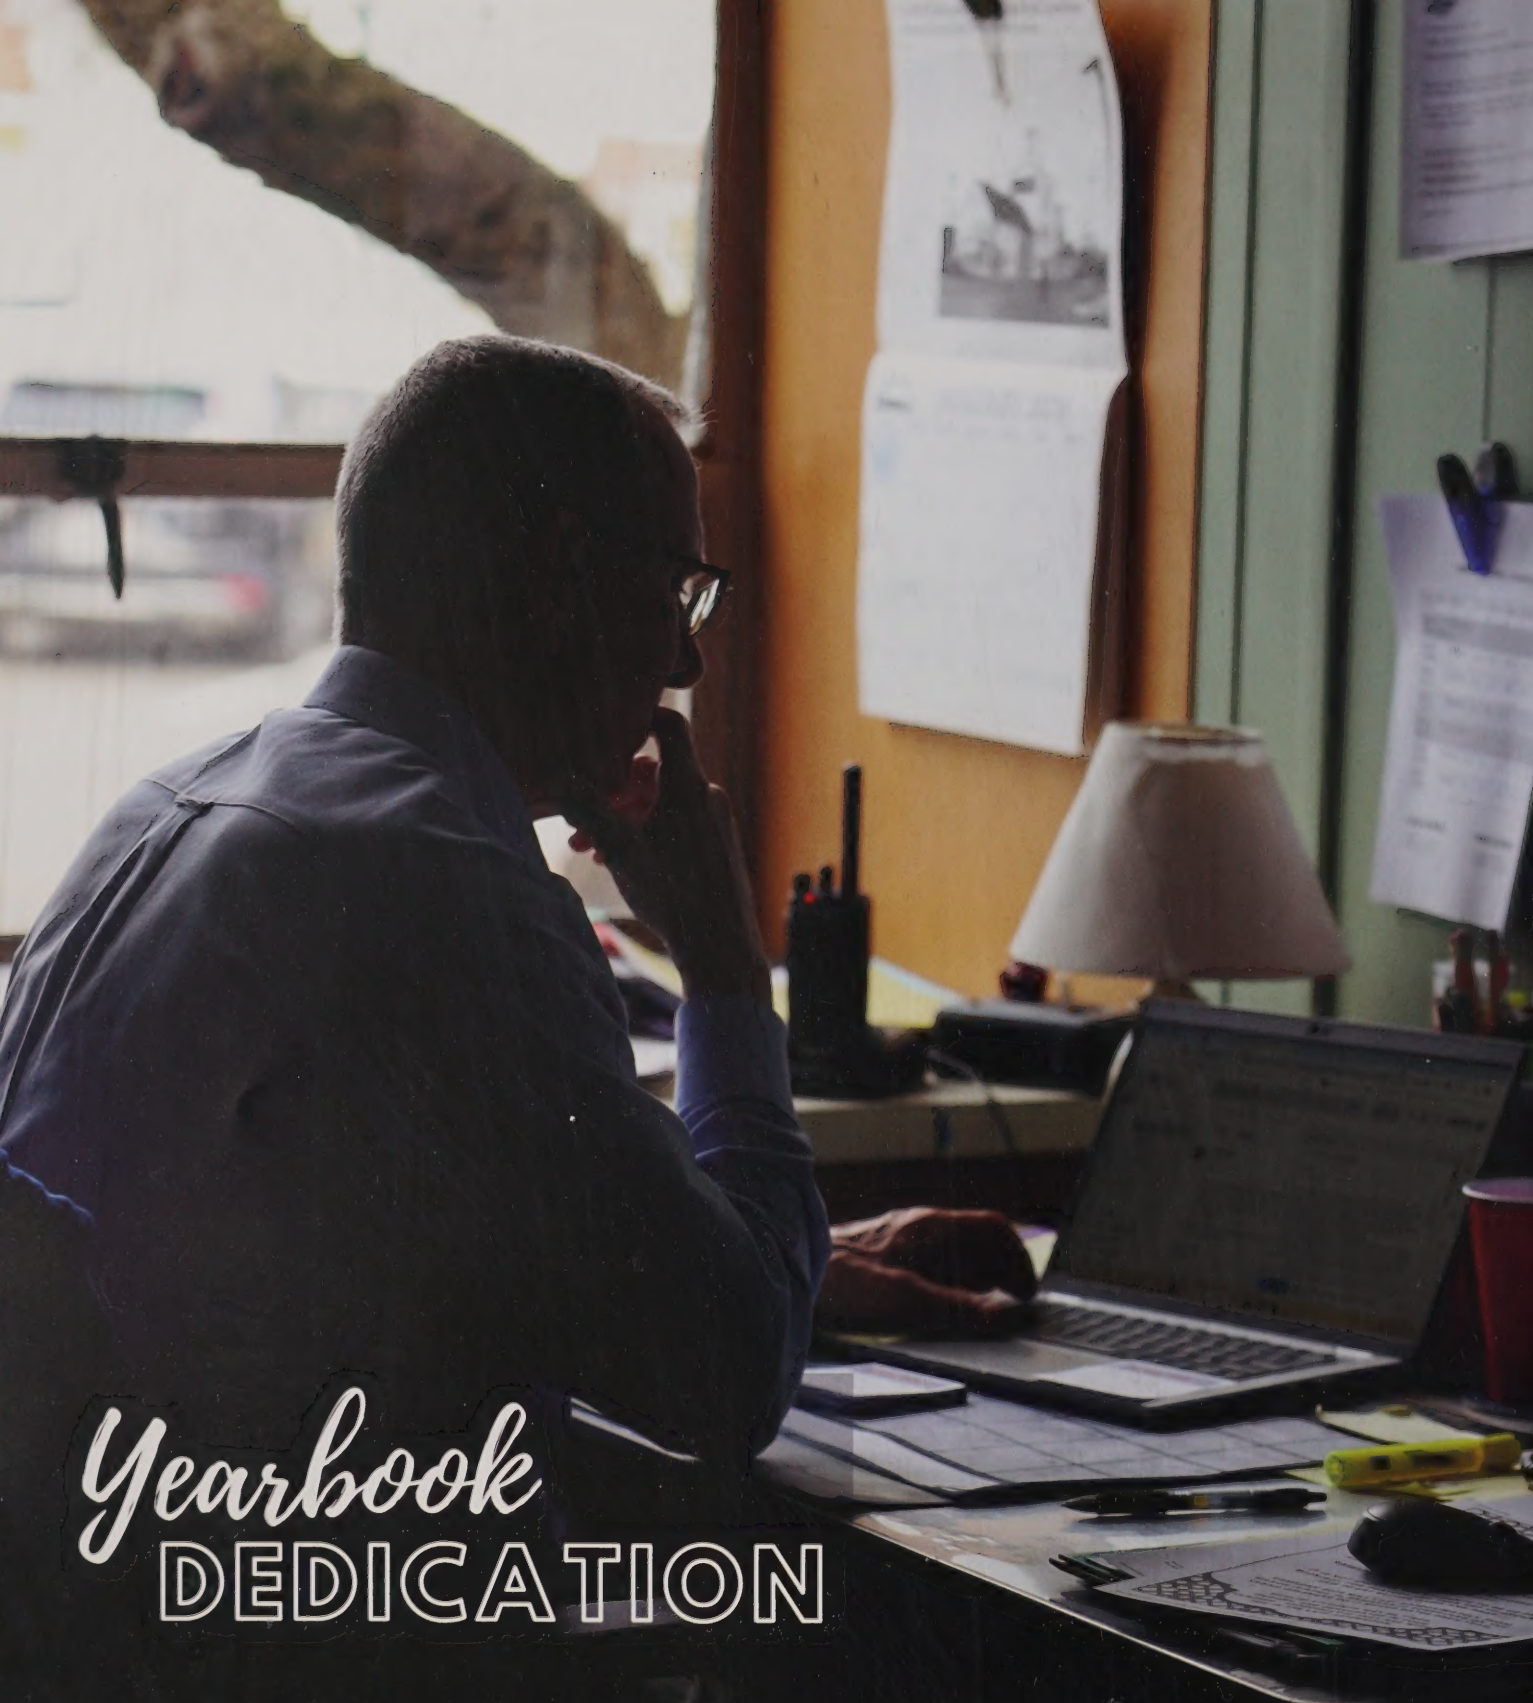
To our families and friends, your unwavering support has been our anchor through the highs and lows of this journey. Your encouragement has given us the strength to chase our dreams and overcome obstacles.

And to our fellow classmates, as we prepare to embark on the next chapter of our lives, let us carry with us the memories we've made and the lessons we've learned. Though our paths may diverge, the bonds we've formed within the walls of Wakefield Memorial High School will forever unite us as a family.

As we bid farewell to this chapter and look ahead to the adventures that await, let us cherish the memories we've shared and embrace the bright futures that lie ahead.

With gratitude and fondness,

The Oracle Yearbook Committee and ChatGPT*



Yearbook DEDICATION

This yearbook is dedicated to Mr. Richard 'Rick' McKenna, whose unwavering dedication as a guidance counselor and teacher at Wakefield Memorial High School has inspired countless students over the years. Your passion, guidance, and warmth will be deeply missed. Wishing you a well-deserved retirement filled with joy and fulfillment. Thank you for your invaluable contributions to our school community.

Retirements & FAREWELLS

As another school year comes to a close, it is with mixed emotions that we bid farewell to three exceptional educators who have left an indelible mark on our hearts and minds.

Firstly, to Ms. Donna Conlon, our esteemed Special Education teacher, your unwavering dedication and boundless compassion have touched the lives of countless students. Your commitment to ensuring every student's success, regardless of their challenges, has been nothing short of inspiring. Your legacy of empathy and inclusivity will continue to resonate within these walls long after your departure.

Next, to Mr. Richard "Rick" McKenna, our beloved Guidance Counselor, your guidance and wisdom have been beacons of light for students navigating the complexities of adolescence. Your genuine care and tireless advocacy have empowered students to reach their full potential and navigate life's twists and turns with confidence. Your presence will be sorely missed, but the impact of your mentorship will endure in the lives you've touched.

Lastly, to Ms. Lucia DeMello, our passionate Italian Instructor, your enthusiasm for language and culture has ignited a love for learning in all who have had the privilege of being your students. Your dedication to fostering a vibrant and engaging classroom environment has enriched our educational experience immeasurably. Your departure leaves a void, but the memories of your dynamic teaching style and infectious enthusiasm will continue to inspire us.

As these esteemed educators embark on the next chapter of their lives, let us take a moment to express our deepest gratitude for their dedication, passion, and unwavering commitment to shaping the future generation. Though they may be leaving our halls, their impact will forever remain woven into the fabric of our school community.

Thank you, Ms. Conlon, Mr. McKenna, and Ms. DeMello, for your years of service, your guidance, and your friendship. You will be dearly missed, but your legacy will live on in the hearts of all who had the privilege of knowing you.

economic ripple effect

FEDERAL REGULATORS SHUT DOWN SILICON VALLEY BANK on March 10, 2023, in the largest U.S. banking failure since the 2008 financial crisis. The bank failure stemmed from the Federal Reserve's actions to curb inflation through hiked interest rates. shifting PARADIGMS

IN A HISTORIC RULING, the U.S. Supreme Court ended race-conscious admissions programs at colleges and universities across the country. In a 6–3 decision in *Students for Fair Admissions, Inc. v. President and Fellows of Harvard College,* Chief Justice John Roberts, writing for the majority, said the schools must use colorblind criteria in admissions. It left the door open for military academies to use race as a factor, deeming they had "distinct interests' to continuing affirmative action policies, citing the need for a diverse officer corps.

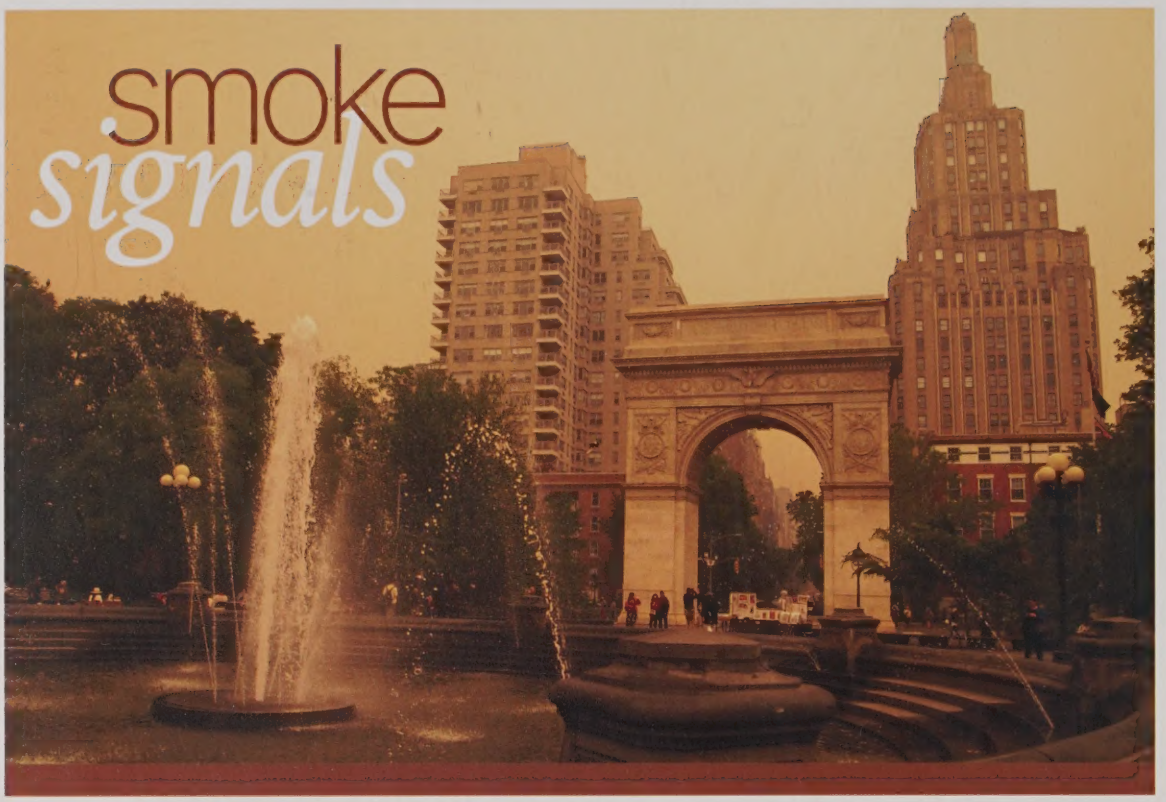
smoke signals

FROM NEW YORK TO FLORIDA, and Chicago to Minneapolis, areas in the U.S. were affected by smoke pollution from Canadian wildfires which began in May and lasted until Oct. 2023. Air quality in New York and parts of the Northeast Corridor reached hazardous levels in June and July, causing people to wear masks. Around 45.7 million acres burned in 2023, surpassing the previous high of 17.5 million acres, according to the Canadian Interagency Forest Fire Center.



blazing temps

JULY 2023 SAW RECORD-SETTING HEAT WAVES in the Northern Hemisphere. Parts of Spain, China, Nevada, Colorado and New Mexico all surpassed their previous temperature highs. California's Death Valley set a new high temperature of 128 degrees Fahrenheit. While some thermometers in the desert read as high as 132, the official high was recorded as 128 degrees. Residents of Phoenix, Arizona endured 31 consecutive days without the temperature falling below 90 degrees Fahrenheit, while temperatures in Miami, Florida broke the record for most consecutive days with a heat index higher than 100 degrees at 46 days.

surging TIDES

WAVES HIGHER THAN 30 FEET crashed onto California and Oregon beaches in Dec. 2023 and Jan. 2024, injuring onlookers and destroying property. The waves, caused by stormy weather in the Pacific Ocean and high sea levels, caused significant coastal flooding and erosion.

WINTER'S WRATH

FROM COAST-TO-COAST, freezing temperatures and snow caused mass disruption to schedules for nearly two weeks in Jan. 2024. Frozen roads and downed power lines caused Oregon to declare a state of emergency, and residents had no power for days. New York Governor Kathy Hochul delayed the Buffalo Bills' divisional playoff game against the Pittsburgh Steelers by two days. A lack of blood donations in five states brought a halt to elective surgeries. Because not enough lawmakers could make their ways to the Capitol to vote, the West Virginia Legislature could not meet.

beyond earth's limits

VIRGIN GALACTIC, the space company founded by British billionaire Richard Branson, launched its first paying customers to space on June 29, 2023. Three passengers funded by the Italian Air Force and one Virgin Galactic employee helmed the inaugural commercial flight. COSMIC revelation

SCIENTISTS RESEARCHING IMAGES CAPTURED by the James Webb Telescope published their theory as to why GN-z11, a galaxy formed 13.4 billion years ago, was so luminous. Astrophysicists from the University of Cambridge reported in *Nature* the galaxy was actually a supermassive black hole about 1.6 million times the mass of our sun. The scientists said it was the earliest black hole ever detected, which prompted new questions of where black holes came from and how they fed and grew.

WATT'S *next?*

A NEW STANDARD announced by the Biden administration would phase out incandescent light bulbs in favor of more efficient LED bulbs. With the new rule, the Department of Energy expected Americans to collectively save $3 billion a year on their utility bills.

OUT OF THIS *world* EXPERIENCE

NASA ASTRONAUT Frank Rubio set a record for the most days spent in space, after the spacecraft carrying him and two other astronauts sprung a leak and delayed his return by six months. Rubio, originally scheduled to spend six months on the International Space Station, spent 371 days in orbit, longer than any U.S. astronaut. Rubio also made history while at the space station when he harvested one of the first tomatoes ever grown in space. When the fruit went missing, he faced suspicion he had eaten it, but was later exonerated in December 2023 when fellow astronauts found it aboard the ship.

YEAR OF THE spice

2023 SAW THE CONTINUED METEORIC RISE of Bronx-born Ice Spice into stardom. Her collaboration with PinkPanthress, *Boy's a Liar, Pt. 2,* went viral on TikTok and reached No. 3 on the Billboard Hot 100. She collaborated with Nicki Minaj twice, first on her song *Princess Diana* and later in *Barbie World* for the *Barbie* soundtrack. Both songs earned the rapper top 10 hits. Taylor Swift even asked her to record a feature for a remix of *Karma,* bringing her out for a surprise performance during her Met Life stop for the Eras Tour. *Karma* reached No. 2 on the Hot 100. She partnered with the Dunkin' chain to create the Ice Spice Munchkin drink.
